# SABIR
## AHMED AMINE

"Dedicated and highly skilled software developer with a passion for crafting efficient, user-centric applications. Offering 3 years of experience in full-stack development with expertise in Web development and Desktop, I am eager to contribute my technical proficiency and problem-solving abilities to a dynamic development team. Committed to producing clean, maintainable code while staying abreast of emerging industry trends to deliver cutting-edge solutions."

**Feel free to customize this objective by replacing 3 years of experience with your actual years of experience and adjusting the specific technologies and skills to match your own. Additionally, tailor it to align with the job you're applying for.**

- User Flows
- Process Flows

## COURES

**Introduction to Computer Science (CS50)**          1/2020 - 3/2020
**Harvard University**

CS50x is Harvard's introductory computer science course, open to all, with a focus on algorithmic thinking, problem-solving, and a wide range of topics including programming languages like C, Python, SQL, JavaScript, CSS, and HTML. Problem sets are inspired by real-world domains, and CS50 is the largest on-campus version.

Python Cours          3/2020 - 4/2020
**Free Code Camp**

Python is a high-level programming language that specializes in data analysis, artificial intelligence, and many other specializations

HTML CSS JS          5/2020 - 7/2020
**Free Code Camp**

They are the languages for designing websites from the outside and inside, but JavaScript has other uses
